Subject: RE: 2008 topographical survey of the Gold King Mine portal and mine dump

Hi OSC Team,

I spoke with the San Juan Surveyors about the 2008 survey at the mine. They will supply a copy of that early next week. They asking in return if they could get a copy of the lidar survey done this year. Is that something that can be provided to them? And if so where can I find a copy?

Thanks,

Elliott

Subject: 2008 topographical survey of the Gold King Mine portal and mine dump

Hello Steve, Chris

this data may be of interest to you. via San Juan County assessor

thanks

Jim

In 2008 Schaaf did a thorough topographic survey of the portal and mine dump that blew out, including surrounding adits on the Gold King.

Seems like EPA would want to access that to get a detailed picture of volume of dump material that went downstream; plus what the whole thing looked like prior.
